**Dear Valued Samco Customer,**

You might already know that Samco was acquired by RefrigiWear earlier this year. Since 1968, Samco has built a strong legacy with long-standing customer relationships, and we intend to respect that legacy as our companies move forward together.

I am excited to welcome you to the RefrigiWear family and want to assure you that we stand by the Samco mission to deliver quality products and services at a great value for customers. Rest assured that your favorite Samco products are still available in this catalog and online. We're grateful for the opportunity to provide gear that keeps you and your team outworking the cold.

With many exciting things to come, we're proud to continue serving your business. If you have any questions about your account or Samco products, please contact our customer service team at 651-638-3888 or go online.

Thank you for being a valued Samco customer and, once again, welcome to the RefrigiWear family!

Sincerely,

Ryan Silberman  
CEO, RefrigiWear

# COLD TIPS

## 10 TIPS TO STAY WARM AND SAFE FOR INDOOR + OUTDOOR WORKERS

Our clothing keeps you warm, safe and productive in cold environments, but choosing the right clothing is only part of the process. To make it simple, here are 10 cold facts that can help you stay warm.

### CHOOSE CLOTHES ACCORDING TO YOUR ACTIVITY LEVEL

More active = less insulation  
Less active = more insulation

### DRINK MORE WATER, LESS CAFFEINE

Caffeine can cause dehydration, making you more vulnerable to the cold. Drink lots of water to stay hydrated & warm.

### EAT MORE

When working in cold temperatures, you should average at least 2,400 calories and up to 4,000 calories per day.

### DON'T WEAR CLOTHING THAT IS TOO TIGHT OR TOO LOOSE

Insulated clothing or layers should fit comfortably and also help seal out drafts.

### PAY ATTENTION TO YOUR BODY

Get out of the cold if you experience extreme drowsiness, loss of balance, extreme shivering or slower breathing.

### AVOID SWEAT BUILD UP

Stay dry to maintain warmth. Moisture can prevent you from staying warm so look for moisture wicking layers.

### PROTECT BARE SKIN

Cover all areas that will be exposed to cold temperatures or wind.

### LAYER CLOTHING

A good inner layer insulates and wicks moisture away from the skin. The outer layer continues the wicking process and insulates by preventing body heat from escaping.

### DON'T SMOKE OR DRINK ALCOHOL

Nicotine and alcohol affect the body's ability to regulate and conserve heat, especially in your extremities.
